Subcategory	Non-locking Carabiners

ANGE S

The ANGE S carabiner represents the best of both traditional solid and classic wire gate carabiners. It combines the fluidity of a solid gate with the lightness of a wire gate. Petzl's MonoFil Keylock technology and the H-shaped cross-section make the ANGE S carabiner ultra-lightweight, just 28 grams, and offer an optimal strength/weight ratio. It is therefore ideally suited for climbers looking to significantly reduce the weight of their rack. The shape of the nose is designed to optimize clipping and unclipping.

Short Description Ultra-light, compact carabiner with MonoFil Keylock gate

Selling Points

- Ultra-light and compact carabiner:
 - it weighs 28 g and is compact, making it the ideal choice for alpine and multi-pitch climbing, where every gram counts
 - size and strength/weight ratio of the carabiner are optimized, thanks to its specific profile and the H-shaped cross-section
- Efficient to use:
 - the deflector works with the shape of the carabiner to promote proper positioning of the carabiner on the major axis, and helps with clipping
 - the tabs on the bottom of the carabiner help keep the STRING in place to better align the quickdraw sling along its major axis
- Great durability and reliability:
 - the MonoFil Keylock gate ensures smoother opening and closing of the carabiner and a much longer lifetime compared to traditional wire gate carabiners. The wire gate is inset within the frame, reducing the chance of it rubbing against the rock
 - the nose of the carabiner has a hole that allows ice, snow or dirt to be cleared out
 - wide rope and anchor contact surfaces for better rope glide and reduced wear on the carabiner
- Available in two colors: light gray or orange

Specification

- Material(s): aluminum
- Certification(s): CE EN 12275 type B, UIAA

Specifications by reference

Reference(s)	M57 G	M57 O
		
Color(s)	light gray	orange
Weight	28 g	28 g
Major axis strength	20 kN	20 kN
Minor axis strength	7 kN	7 kN
Open gate strength	9 kN	9 kN
Gate opening	23 mm	23 mm
Capacity	19 mm	19 mm
Made in	FR	FR
Guarantee	3 years	3 years
Inner Pack Count	1	1
Quantity Per Box	28	28
