Type	Verticality
Category	Belay Devices And Descenders
Subcategory	Manual Braking Belay/Rappel Devices

VERSO

VERSO is Petzl's lightest belay device. It accommodates most rope diameters: single 8.5 to 11 mm, half 7.1 to 9.2 mm and twin 6.9 to 9.2 mm. Intuitive and easy to use, it can be used to belay a climber and to rappel. The specific design of the rope channels facilitates smooth rope glide and reduces wear.

V-shaped friction grooves enable controlled braking.

Rope installation diagrams for belaying and rappelling engraved on the device.

Durable and lightweight.

Short Description Compact, lightweight belay/rappel device, for use with one or two rope strands and for rappelling

Selling Points

- Suitable for a broad range of rope diameters:
 - compatible with 8.5 to 11 mm dynamic single ropes
 - compatible with 7.1 to 9.2 mm dynamic half ropes
 - compatible with 6.9 to 9.2 mm dynamic twin ropes
- Simple to use:
 - feeding slack and catching falls are accomplished using standard belay techniques, always keeping a hand on the brake side of the rope
 - V-shaped friction grooves enable controlled braking
 - rope glides smoothly through the device
 - can be used to belay a climber and to rappel
 - rope installation diagrams for belaying and rappelling engraved on the device
- Lightweight and durable:
 - compact and ultra-lightweight: only 55 g
 - the rounded design of the rope slots limits wear and extends the life of the device

Specification

- Weight: 55g
- Rope compatibility: single ropes 8.5 to 11 mm, half ropes 7.1 to 9.2 mm, and twin ropes 6.9 to 9.2 mm
- Material(s): aluminum frame
- Certification(s): EN 15151-2, UIAA
