## DUO S

Do you crave subterranean adventures? So does the DUO S caving headlamp! Ultra-powerful, with 1100 lumens in BOOST mode, the this lamp runs on a rechargeable battery. Waterproof and durable, it's ready to take on the moisture and mud of underground caves. When you're in a group, you can count on the comfort provided by the FACE2FACE anti-glare function, which allows you to face each other without blinding one another. What will you explore today?

The headlamp offers five lighting modes that adapt to any situation and has the FACE2FACE anti-glare function that allows users to face each other without blinding one another.

A simple and ergonomic rotating knob for easy manipulation, even with gloves.

The rechargeable battery is positioned at the rear to balance the weight worn on the head.

Compatible with the BOREO CAVING helmet for caving activities.

**Short Description** Ultra-powerful, waterproof and rechargeable headlamp, featuring Petzl's FACE2FACE anti-glare function. 1100 lumens.

- Selling Points**
- Five modes, plus BOOST, to adapt lighting to any situation:
    - Close-range lighting: low-intensity flood beam maximizes burn time
    - Proximity lighting: mixed beam with brightness suited for comfortable proximity vision
    - Lighting for movement: mixed beam includes focused lighting that allows for greater ease of movement
    - Lighting for rapid movement: more powerful mixed beam allows users to anticipate the terrain
    - Distance vision: highly focused beam for long-range vision
    - BOOST mode provides temporary maximum power of 1100 lumens
  - Great durability:
    - Waterproof in up to 1 meter of fresh water for 30 minutes and up to 3 meters for 10 minutes when passing through sumps while caving
    - Excellent fall, impact and crush resistance
  - Rechargeable battery:
    - 3200 mAh Lithium-Ion battery
    - Recharges in 4 hours with quick 110/240 V wall charger (included)
    - Energy gauge
    - Removable and replaceable (available as an accessory)
  - Increased safety and comfort when working in a group with the FACE2FACE anti-glare function, which automatically dims the light when two or more beams cross, enabling those using DUO headlamps to face each other without blinding one another
  - Reliable and ergonomic:
    - Rotary switch, operable even while wearing gloves
    - Automatic lock function prevents the lamp from turning on during transit or storage
    - Automatically switches to reserve lighting when the battery is almost drained
    - Balanced, with the remote battery pack fixed at the back of the head
  - Adaptable to a wide range of helmet types with the PRO ADAPT adhesive plates (available as accessory)
  - Detachable, washable headband (included)
